INVESTMENT OBJECTIVE AND POLICY

The objective of the Fund is to maximize income and achieve higher returns compared to regular bank deposits while preserving capital by investing in a portfolio of very liquid, fixed-income instruments and maintaining a Weighted Average Portfolio Life of 1 year or less.

The Fund shall invest in deposit products of banks, debt obligations of the Government of the Republic of the Philippines and its instrumentalities, fixed income securities issued by Philippine companies, and such other short-term fixed income instruments allowed for unit investment trust funds by the BSP.

The Fund may also invest in the following financial instruments:

- Deposit products;
- Securities issued or guaranteed by the Philippine government or by the BSP;
- Tradeable securities issued or guaranteed by multilateral institutions such as Asian Development Bank (ADB), International Monetary Fund (IMF) and World Bank;
- Marketable instruments that are traded in an organized exchange;
- Such other tradeable investment outlets as may be allowed by the BSP.

The Combined Exposure Limit of the Fund to any entity and its related parties shall not exceed fifteen percent (15%) of the market value of the Fund or as may be prescribed by the BSP. The fifteen percent (15%) exposure limit does not apply to the Fund's investment in securities issued or guaranteed by the Philippine government or by the BSP.

- THE UITF IS A TRUST PRODUCT AND NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED NOR GOVERNED BY THE PHILIPPINE DEPOSIT INSURANCE CORPORATION (PDIC).
- THE UITF IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY ATRAM TRUST CORPORATION OR ITS AFFILIATES OR SUBSIDIARIES.
- DUE TO THE NATURE OF INVESTMENTS OF A UITF, THE RETURNS/YIELDS CANNOT BE GUARANTEED. HISTORICAL PERFORMANCE, WHEN PRESENTED, IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.
- ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT

OF THE CLIENT. AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.

• THE TRUSTEE IS NOT LIABLE FOR ANY LOSS UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.

• THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF'S PLAN, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.

CLIENT SUITABILITY

A client suitability process shall be performed prior to participating in the Fund to guide the prospective Investor if the Fund is suited to his/her investment objectives and risk tolerance. Clients are advised to read the Declaration of Trust/Plan Rules of the Fund, which may be obtained from the Trustee, before deciding to invest.

The ATRAM Peso Money Market Fund is suitable only for investors who:

- have a conservative risk profile
- give prime consideration to high liquidity and capital security
- have a short-term investment horizon
- are seeking better returns compared to time deposit

KEY RISKS AND RISK MANAGEMENT

You should not invest in this Fund if you do not understand or are not comfortable with the accompanying risks.

Market Risk. Factors (e.g. macroeconomic developments, political conditions) that affect the overall performance of financial markets may lead to lower prices of securities and losses for investors. ATRAM Trust adopts an active investment management strategy which incorporates market and fundamental research to help mitigate market risk.

Counterparty Risk. The Fund is exposed to risks arising from solvency of its counterparties (e.g. custodian, broker, banks) and their ability to respect the conditions of contracts or transactions. ATRAM Trust only deals with reputable and financially stable accredited counterparties.

Liquidity Risk. Liquidity risk occurs when certain securities in a fund's portfolio may be difficult or impossible to sell at a particular time which may prevent the redemption of investment in a fund until its assets can be converted to cash. ATRAM Trusts invests the portfolio in very liquid securities in order to minimize liquidity risk.

Reinvestment Risk. When income is received from the investments, or when the investments are sold and reinvested, there is a risk that the return would be lower than the return realized previously.

Legal and Tax Risk. The interpretation and implementation of laws and regulations are constantly changing and they may change with retroactive effect. There is no certainty that investors will be compensated for any damage or loss incurred as a result of legal or regulatory changes. ATRAM Trust keeps up to date on regulatory developments and consults tax and legal professionals on the interpretation of new laws and regulations.

Interest Rate Risk. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates. As the prices of bond investments of a fund adjust to a rise in interest rates, the Fund's unit price may decline. Active duration management is undertaken to mitigate interest rate risk.

Credit Risk. An investor is exposed to credit risk as there is a possibility that a borrower may fail to pay the principal and/or interest in a timely manner on instruments such as bonds, loans, or other form of debt securities which the borrower used. ATRAM Trust conducts a robust credit analysis for effective investment decision making.

Investors should be aware and understand that all investments involve risk and that there is no guarantee against losses on investments made in the Fund. The Fund Manager employs strategies to mitigate risks, however, there is no assurance that no loss will be incurred.

ABOUT THE BENCHMARK

Effective August 30, 2024, ATRAM Trust has changed the benchmark of the Fund from the Philippine Peso Time Deposit Rate up to 1 Month to the Markit iBoxx ALBI Philippines Money Market Index. This change aims to better align with the Fund's investment objectives and strategies while also enhancing its overall expense ratio.

New Benchmark:

Markit iBoxx ALBI Philippines Money Market

The Benchmark is a total return index composed of all Philippine government bonds and Treasury Bills with a remaining maturity of three (3) months and one (1) year, and a minimum notional size of PHP 3 Billion. Retail bonds are eligible for the index. With the maturity being less than one (1) year, the risk profile of the Benchmark is conservative.

The Fund aims to outperform the return provided by the Benchmark through its investment objective of achieving higher returns compared to regular bank deposits.

The Fund is actively managed. The fund manager has the broad discretion to deviate from the securities, weightings and risk characteristics of the Benchmark. The degree to which the Fund may resemble the composition and risk characteristics of the Benchmark will vary over time and its performance may be meaningfully different.

The Fund shares the general interest rate risk inherent in the securities of the Benchmark. Investors should take note that the Fund may invest in time deposits, short-term corporate bonds, money market placements that introduce additional credit/default and/or counterparty risks to the Fund.

The Benchmark is part of the iBoxx Asian Local Bond Index family, which is designed to reflect the performance of local currency bonds from 11 Asian local currency bond markets. For additional information on the benchmark, investors may visit the website of IHS Markit, www.markit.com/.

Old Benchmark:

Philippine Peso Time Deposit Rate up to 1 Month

The Benchmark represents the average one (1) month time deposit rate as surveyed by the Bangko Sentral ng Pilipinas as part of its regular statistical reporting. The Trustee will report Benchmark returns on a daily accrual basis, net of final withholding tax on interest income. Investors should take note that the Fund may invest in securities with interest rate risk, but the Weighted Average Portfolio Life will not be more than one (1) year. Investors should also take note that the Fund may invest in fixed income securities that introduce credit, default, or counterparty risk to the Fund. Daily accrual is intended to mimic reinvestment risk instead.

The Bangko Sentral ng Pilipinas serves as the central bank of the Philippines, is independent of the Trustee, and has no direct relationship to the Trustee apart from being its regulator. For additional information on the Benchmark, please visit their website, www.bsp.gov.ph.

Participation in the Fund may be further exposed to the risk of potential or actual conflicts of interest in the handling of in-house or related party transactions by ATRAM Trust. These transactions may include: deposits with affiliates; purchase of own-institution or affiliate obligations (e.g. stocks); purchase of assets from or sales to own institutions, directors, officers, subsidiaries, affiliates or other related interests/parties; or purchases or sales between fiduciary/managed accounts. All transactions with related parties, if any, are conducted on an arm's length basis.

The cut-off time for subscriptions to/redemptions from the Fund may vary depending on the distribution channel clients use to transact or submit orders to. Regardless of the channel, the cut-off time will not be later than the cut-off time stated in this document. Investors should review the terms and conditions of their chosen channel for accurate information on transaction deadlines.

OUTLOOK AND STRATEGY

Inflation for July had a slight upswing driven by higher energy prices. Headline consumer price index (CPI) increased by 4.4% in July, higher than June's 3.7%. This now brings the year-to-date (YTD) average to 3.7%. On the monetary policy front, the Bangko Sentral ng Pilipinas (BSP) Monetary Board (MB) has finally decided to reduce the Target Reverse Repurchase (RRP) Rate by 25 basis points (bps) to 6.25%. This is in line with the expectation that inflation is on a downward trajectory by YE24. In addition to the cut, the MB has also adjusted the risk-adjusted inflation forecasts for 2024, 2025, and 2026 to 3.3%, 2.9%, and 3.3% respectively.

Given that our local policy rate remains elevated above 6%, while the market waits for further easing of inflation, this opens a better reinvestment opportunity for the money market fund. With this at hand, we still see value in yields of 28D BSP bills, treasury bills, and time deposit rates, allowing the money market fund to invest more in these securities. BSP bills remain the highest-yielding asset, with the fund maintaining its overweight position for this security.
